**Data
Destruction
Management
to Meet
Government
Regulations**

**The
perfect
storm:
Retired
hard drives
winding up in
the wrong hands.**

**A partnership with TechR2 will
bring your enterprise accurate
risk assessment, a legal
safeguard and a successful
journey to end-of-life data
protection.**

Why risk it?

friendly & experienced
TechR2 Staff Member

TechR2 provides a leading cybersecurity framework and full compliance with commonly required NIST 800-171, NIST 800-53, as well as ISO strategic certification for data management.

What differentiates TechR2 as an industry leader?

Data Security Control	TechR2	Others
Failed data bearing devices are Tracked, Contained, Destroyed and Verified while in the organization's control (on site)	✓	✗
Includes NIST 800-171 compliance to the DFARS standard, ISO 27001 and NIST Core certification	✓	✗
The ISO 9001 Tear-A-Byte Appliance utilizes a steel reinforced drive containment appliance	✓	✗
TechR2 uses unique Serial Number (PID) Labels with ISO 27001 certification	✓	✗
The TechR2 Inventory Management software system maintains a real time inventory of data bearing devices in containment and those destroyed	✓	✗
Photographic evidence of every drive is recorded	✓	✗
Data destruction utilizes a sanitizer and verifier	✓	✗
The Certificate of Destruction (Sanitization) meets the NIST 800-88 requirements	✓	✗

Our Leading Credentials:

ISO 27001 and **NIST** certified for Data Security

ISO 20243 certified for Secure Data Systems

ISO 9001 certified for Quality Management

ISO 14001 certified for Environmental processes

ISO 45001 certified for Health and Safety practices

ISO 31000 certified for Data Risk Management

Our Expert Services:

Patented End-of-Life **IT asset management process**

Secure end-point device & IT asset **value recovery**

Shredding to 2mm remnants

Recycling of IT peripherals

End-of-Life cybersecurity framework **risk assessment**

Full-service **datacenter decommissioning services**

Safe & efficient **secure transport**
