

What makes Tear-A-Vault different?

- › Securely tracks and contains **80 laptops**
- › Ideal for leased equipment - Adding extra layer of security prior to return
- › **Meets NIST 800-88, 800-53, 800-171 requirements** for safe device overwriting, and continuous tracking
- › Integrates with additional solutions by **Tear-A-Byte** for failed hard drives and **SMART TechBOX** for ESG recycling
- › Engineered with a focus on **ultra-low carbon impact**
- › Ensures **full chain of custody** within your environment from when laptops are returned until when they are wiped
- › **Built in dashboard** provides access to the progress and reports for every contained laptop
- › The Tear-A-Vault patented system includes **3 years of unlimited support, maintenance, and audit reports**
- › **Made in the USA**
- › **Dimensions:** 24"W X 33" D X 78"H

A complete audit-ready system for managing laptop data intake through verified wiping.

Tear-A-Vault®

Secure Data Destruction Vault

TechR2, a leader in End-of-Life Ecosystem solutions, presents **Tear-A-Vault**, the most effective **Laptop Containment, Tracking and Wiping system**. Get NIST, NSA and ISO compliance with this secure, and easy to use laptop maintenance appliance.

A Smarter Way to Manage Data-Bearing Media

Tear-A-Vault is a tamper-resistant, steel container that securely stores data-bearing assets like hard drives, SSDs, laptops, and mobile devices at your facility. It provides controlled access, serialized tracking, and documented chain-of-custody – eliminating risk from unsecured handling or undocumented storage before destruction.

How It Works

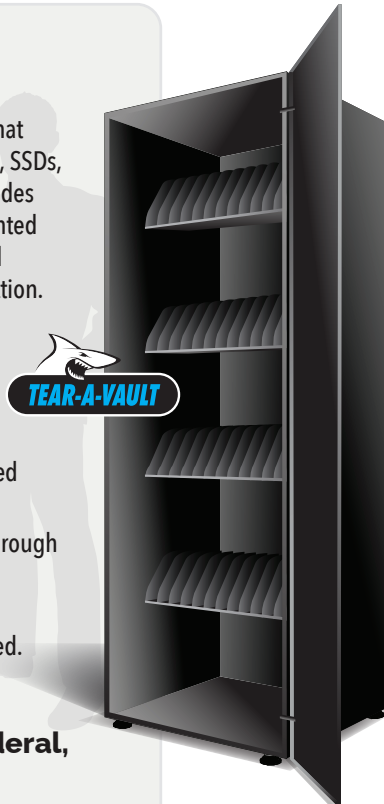

- ▶ **Track** Devices are securely deposited and logged into the vault.
- ▶ **Contain** Data-bearing assets are safely stored with complete accountability.
- ▶ **Wipe** Contents are securely processed through Tear-A-Byte® Destruction.
- ▶ **Verify** Complete Chain-of-custody and Certificates of Destruction are issued.

Tear-A-Vault fulfills regulatory demands and achieves State, Federal, and industry compliance:

- ✔ NIST 800-53 MP-6 (1) and NIST 800-88 Section 4.5
- ✔ FFEIC II.C.7, II.C.8, II.C.11 and II.C.13(a)
- ✔ HIPAA 164.308(a)(1)(ii)(A), 164.310(a)(2)(ii), 164.310(a)(2)(iii), 164.310(a)(2)(iv), 164.310(d)(1) & More
- ✔ ISO 27001 A.11.1

Tear-A-Vault is perfect for organizations with ongoing data destruction needs, including:

- ✔ Healthcare & Life Sciences
- ✔ Financial Services
- ✔ Government & Public Sector
- ✔ IT Departments & Data Centers

Dimensions:
24" W x 33" D x 78" H

Made in the USA
from all steel
frame construction.

Inventory Manager & Asset Tracking

- ✔ Tear-A-Vault includes TechR2's Inventory Manager, offering complete visibility and documentation for every device, ensuring full accountability from deposit through destruction.
- ✔ Track device activity and service history for full accountability.
- ✔ Access real-time reports and Certificates of Destruction at any time.
- ✔ Maintain consistent, audit-ready documentation across all locations.

Keeping Your Brand Safe from Data Compromise

- ✔ Tear-A-Vault offers a new-age solution to safeguard your business.
- ✔ Protect your organization from data breaches, compliance failures, and operational gaps with Tear-A-Vault.
- ✔ Ready to secure your media?
- ✔ Speak with a TechR2 specialist to design a secure, compliant media destruction program.

Works hand-in-hand with the Tear-A-Byte® process, and SMART TechBOX for secure containment and responsible recycling.
